## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 25 September 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### **DETAILED ACTION**

Claims 1 – 5 and 7 - 29 have been examined.

Claim 6 has been canceled.

Claims 1-5, 7-11, 20, 23, 25 and 26 have been amended.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 8 is rejected under 35 U.S.C. 102(e) as being anticipated by USPN #7,194,730 filed May 31, 2001 (Pramberger)

### **Claim 8**

Pramberger anticipates a system for managing software builds (Col 1, lines 20 – 36), comprising: a code control system that maintains a code version (Col 2, lines 20 – 26) and a information associated with the code version (Abstract – definitions and col 5 lines 26 - 45) ; a parser module in communication with the code control system (col 7, lines 1 – 19) , the parser module that parses the information associated with the code version (col 7, lines 1 – 19) and create a change report (col 6, lines 30 – 50); a compiler module in communication with the code control system that compiles the code (Col 1, lines 20 – 36) version into an object version based on the change report Col 1, lines 20 – 36) ; and a document type definition compiler module that compiles a

document type definition document version into a plurality of metadata class versions and wherein the code control system stores the metadata class versions (Col 5, lines 25 - 45)

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over by USPN #7,194,730 filed May 31, 2001 (Pramberger) in view of XML transformations definitions as taught (col 19, lines 5 – 14).

**Claim 9**

The system of Claim 8, wherein the metadata class versions are further defined as Vitria BusinessWare metadata class versions of a commercial- off-the-shelf application sold under the trademark VITRIA BUSINESSWARE.

Pramberger teaches the ability to define in XML format for input and output (col 19, lines 5 – 14). Pramberger does not teach the format for VITRIA BUSINESSWARE. One of ordinary skill in the art with the knowledge of the layout for VITRIA BUSINESSWARE. and the ability of using XML would know how to define transformation code to support VITRIA BUSINESSWARE, because XML is intended to support many forms of input and output.

***Allowable Subject Matter***

3. Claims 1 – 5 and 7 and 10 - 29 have been examined allowed.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

***Examiner Comment***

Examiner recommends an After Final Amendment to claim 8.
